How to Use the Directory

The City Directory is really a cooperative catalog of the inhabitants, business interests, and institutions of the City. But the very mass of the information contained, until one learns how to use it, may appear to be an obstacle to those unfamiliar with its arrangement.

Chambers of Commerce receive thousands of calls for information, many of which might be answered with a saving of time to all concerned by a simple reference to the Directory, if inquirers thought to look there first. At the suggestion of one Chamber, the following list of typical questions which can usually be answered by referring to the Directory, was drawn up. It is interesting, educational, and should help users to get more value from the Directory.

(Typical Questions)	*(Department of Directory where the answer can usually be found)*

How Many Changes in a Year?

Out of every 100 People listed in last Directory—

16% to 18% move away, or die

New People, equal to 17% to 19% move into town, or reach listing age

26% to 29% more change their address, or their jobs, or some other vital fact that affects their listing

59% to 67% of the People listed have new information in some particular, which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities, and do not vary 5% in any year

Locating Missing Heirs
Finding Lost Persons

This is only one of the many offices that a modern directory successfully fills

The Directories of the United States form a perpetual inventory of the human element of the nation as well as the business activities.

Police Departments, the country over, rely upon directory information for the location of lost persons. Lawyers and executors of estates are likewise dependent on the information that these "city catalogs" contain.

Real Estate buyers and agents have multitude occasions to refer to the pages of directories of other cities in order that they may have detailed and authentic information on parcels of land and subdivisions in which they have a personal or business interest.

Credit managers have unlimited use for the pages of the modern directory, as have collection managers and agencies.

The uses of the City Directory are legion; the information is authentic and the manufacturers and companies that are represented therein are reputable and dependable.

Providence was founded in 1636 by Roger Williams. Incorporated in 1832. The oldest bank in America and the first Baptist meeting house in the country are located in the city. Brown University, founded in 1764, and many institutions of the early eighteen hundreds are within the city limits. The first directory of names and addresses of persons located in the city was published in 1824.

Providence is the second city of New England in point of population, a fact of special significance, inasmuch as the figures of the United States Census Bureau credit the city with 252,981 inhabitants, yet its area is only nineteen square miles. This City is the trading centre for an immediately adjoining population of fully five hundred thousand people; furthermore, if we include an extended area, the population of which turns to Providence more than to any other city, that trading population is increased to seven hundred and fifty thousand. Recent statistical estimates prepared for the Census Bureau with a view to establishing boundaries for Metropolitan Providence place it eleventh in area among cities of the United States.

Many factors contribute in making Providence a great city in respect, not only to population, but to industrial activity. Situated as it is on Narragansett Bay with its deep channel and other superior water facilities, the city is in a position to call to its service transportation by water as well as by rail. The activities of the Port of Providence increase year by year and they will expand at a tremendous rate when there shall be established in the city elevators which can supply grain cargo to fill the bottoms of ocean steamers.

Providence is more than usually well provided with excellent public utility facilities. Its Gas Company is known as the most efficient in the industry in New England. Its highly efficient electric service has grown to very large proportions. The street railway system, now embodied in the Rhode Island Public Service Company, furnishes service not only within the city, but to many outlying points. Its telephone service is the equal of the best in the New England Telephone and Telegraph system, of which it is a part.

The densely populated industrial district of Providence, with its large population to be fed and clothed, is known in all parts of the United States as a distributing point of great importance. Because of the excellent educational opportunities offered, there is a large student population attending Brown University, Pembroke College, Providence College and various smaller private schools.

Providence is particularly fortunate in having a diversity of manufactures. It is not dependent on any one industry. The great industries which have distinguished the city for many years include textiles, jewelry, silverware, iron and steel. It has, for instance: the largest machine shop in the world; the largest finger ring manufacturer in the country; the largest file manufacturers in the world; the largest silverware manufacturers in the United States; the largest screw manufacturer in the world; one of the leading newspapers of the country, the Providence Journal. Back of these industries and supporting them is a great variety of products, large and small, that have a national reputation. Few cities in the United States send out daily so many small packages of so great a variety of manufactured articles as does Providence.

The city of Providence has one of the lowest municipal tax rates in the country, a low bonded indebtedness and numerous other advantages. Among the most important of these is the wonderful water supply now impounded in an area some seven miles from the city, and as large as the city itself, which ensures pure water for human consumption and a plentiful supply for fire emergencies.

Providence retail trade is prosperous, as it should be, in the centre of so great a population. Likewise the wholesale trade, which reaches out over an area extending into Connecticut, Massachusetts and other New England states.

Few cities have been more active in providing adequate facilities for the care of the sick and needy; its hospitals are equal to all demands. The municipality has been active in providing for its citizens those agencies, such as parks and playgrounds, that contribute to the promotion of life and health. The parks form the centre for annual events which attract hundreds of thousands of people for enjoyment and cultural development. Best known among these events is the Annual Festival of the Providence Festival Chorus in Roger Williams Park.

Providence is an attractive city in which to do business and to live in comfort and security. This is evidenced by its continued increase of population over that which follows a steady birth-rate, due to the coming from all parts of the country of investors of both capital and labor. Newcomers are accommodated in Providence as in few other cities with publicly conducted enterprises which ensure good health, excellent educational opportunities, good living conditions and satisfactory returns.

For those who are interested in obtaining general information or detail particulars regarding the municipality and business opportunities it is recommended they write to the Providence Chamber of Commerce.

Why the City Directory first. It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because it's an index to the city and can be found in libraries in the principal cities of the United States and in Canada, besides in the offices of many of the important business houses throughout the world.

Beat Them To It - By Advertising in the

CITY DIRECTORY

Thousands upon thousands will consult it for a whole year. The price of space is so small, compared with the valuable publicity you get, that you can't afford to be left out.

SAMPSON & MURDOCK CO.

179 LINCOLN STREET - - BOSTON, MASS.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

PROVIDENCE DIRECTORY

REFERENCE DEPARTMENT

Where more information than is possible to give under the classfied listings is placed on file for buyers reference. The value of this department is inestimable. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information.

INVEST and SAVE

in Shares of the

Federal Savings and Loan Association

OF PROVIDENCE

Member of the Federal Home Loan Bank

United States Government Supervision

Accounts Insured up to $5000 for Each Individual

THE Federal Savings and Loan Association of Providence is a MUTUAL, locally-owned and managed thrift and home-financing institution, with the Federal Government as a co-investor. The safety of every investor's holdings in the association is fully insured up to $5,000 by the Federal Savings and Loan Insurance Corporation, an instrumentality of the United States Government.

Four Types of Savings and Investment Shares For Those Who Want to Save Safely

INSTALLMENT THRIFT SHARES:—For regular investment of a fixed amount each month. A form to be recommended.

OPTIONAL SAVINGS SHARES:—For irregular investment of varying sums. Convenient for those whose income fluctuates.

PREPAID SHARES:—For lump-sum investment, with dividends allowed to accumulate. Excellent for reserve funds.

FULL-PAID INCOME SHARES:—For lump-sum investment with semi-annual cash dividends to be paid to shareholders.

Funds may be withdrawn with no penalty deduction

MORTGAGE LOANS

The funds of the association are loaned on monthly reducing mortgages on homes. Annual interest rate of $5\frac{1}{2}\%$ is figured on the unpaid balance of principal each month. The monthly payment on mortgage includes 1/12 of yearly taxes and 1/12 of the fire insurance.

All shares of FEDERAL SAVINGS AND LOAN ASSOCIATION are exempt, both as to their value and income therefrom, from all Federal Taxes including Income Tax.

Credit Information

Correct name, occupation, home address, where employed and wife's first name is given in the alphabetical directory. A symbol (◎), used for owners, in the House Directory, designates whether resident is a tenant or owns his home.

Determine the character and stability of applicant for credit

The alphabetical directory gives his present occupation and residence. By referring to the current and previous issues of the directory one can quickly determine whether the occupant occupies the same position and residence or moves often from one job to another and from one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You will find former issues of City Directories invaluable in checking past records of your customers.

"Something Different" *"The New Idea"*

Highland Memorial Park

We present to the people of Rhode Island a unique answer to a delicate problem

Eclipsing the old idea of neglected, disarrayed monumental grave-yards with the new perpetually cared for Burial Park, having no monuments of any description. Small granite or bronze markers, with the necessary engraving are used at the head of each grave, laid flush to the ground. Here is symmetry and peaceful beauty which cannot be obtained under the old conception of burial grounds.

Lots may be purchased on easy terms. To be appreciated they must be seen. We are always ready to help you with your problem of making a satisfactory selection. Our prices and terms make this service accessible to all.

For further information apply to the office at the Park or to the main office in Providence.

A Public Service Publication

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

WHEN YOU WANT TO KNOW

— where a person lives.
— what his occupation is.
— who lives at a certain number on a street.
— where a street is located.
— the correct spelling of a name or street.
— the officers of a corporation.
— the partners of a firm.

and many other questions that arise every day.

Good Business Insurance

YOUR advertisement in THIS Directory with proper classified listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active, 365 days every year. Let it serve you as it does others.

Our representative will be pleased to call and explain in detail the value of reference advertising.

Are You
Leaving A Record For The Future?

It may prove a serious matter in years to come if by any chance you should be incorrectly listed in or left out of the City Directory. Cases have occurred where the evidence of the City Directory, as to residence or occupation, has had an important bearing on the disposal of a fortune. Business men, especially, should see to it that their firm's record is absolutely correct and all changes should at once be reported.

"Better Be Safe Than Sorry"

A small amount invested will list you under several lines of your business.

"THEY KNOW WATCHES AT FOSTERS"

SINCE "1876" THE STORE OF QUALITY—VALUE—SERVICE

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it, however, like anything else worth while.

It is worth while to know where you can get reliable information that may be wanted in a hurry sometime. A little study that opens up a new way to save time or increase accuracy is an asset to anyone.

A Buyer Wants Information

Does your copy tell him more than he already knew when he turned to the page bearing your advertisement?

Purchasing agents often tell us they find a concern specializing on just what they are looking for by turning to these descriptive spaces, but that in many cases insufficient information is given.

Whatever helps the buyer to find what he wants means business for the seller. Anyone referring to a directory advertisement does so because he is already **interested**. Therefore space need not be used to attract **attention** or **create desire.**

Treat the reader as you would a person coming directly to you, inquiring about your service or product with the idea of doing business. Don't let your prospect turn away from your ad without finding out why you are equipped to serve him.

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. **Put—"We are listed in the directory"** in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit

Modern Conveniences

Lost, sometimes, amid the more spectacular conveniences, such as the auto, telephone, radio, or aircraft, yet the

CITY DIRECTORY

is probably the greatest convenience of this or any other age. Ponder, for a few moments, on the service rendered by the city directory. It would not be stretching matters to say that it can accurately answer hundreds of questions about the municipality it represents. Familiarize yourself with this truly wonderful book. Learn how to use it to the greatest advantage. Study the index and miscellaneous information section for a few moments. The gold mine of local facts and information will surprise you. You will learn things about your own city that you never knew before.

This Buyers' Guide Contains

the advertisements and business references of the more progressive business men and firms in the city, classified according to lines of business.

Consult it for your Needs!

This Publication Is The Product of a Member of

— thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9 To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a 'privilege card' will be sent you upon request to
